NOVEMBER 2002 BULLETIN #13

Eleven New Zone Maps Now Available for Review

The Seismic Hazard Mapping Program (SHMP) released the Whitaker Peak Quadrangle in northern Los Angeles County for Preliminary review on September 23. Also in northern Los Angeles County, Agua Dulce, Condor Peak, Hi Vista, Lovejoy Buttes, and Matilija quadrangles were released for Preliminary review on October 17. The public's technical review comment period ends 3 months after the release date.

The SHMP will release five (5) Preliminary Maps on December 20th: Ventura Quadrangle, in Ventura County, and the Alameda County portions of Hayward, Redwood Point, Mountain View and Newark quadrangles.

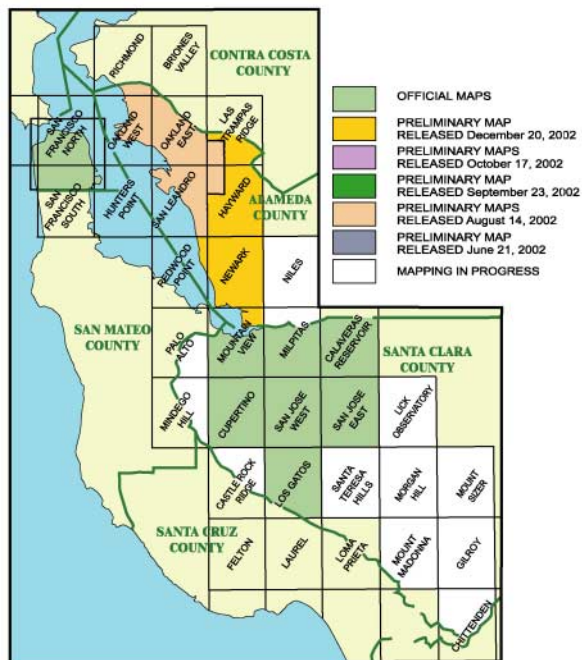

Seven Maps to Become Official in December

The SHMP will issue 7 new Official Maps on December 20th: Santiago Peak in Orange County, and Pitas Point, Ojai, Oxnard (revised), Fillmore, Piru, and Val Verde (a portion in Los Angeles County), all in Ventura County. The December 20th Saticoy Quadrangle Official Release has been delayed pending further landslide analysis.

Orange County Mapping is Now Complete!

With the upcoming December 20th Official Release of the Santiago Peak Quadrangle, 18 Seismic Hazard Zone Maps covering Orange County will now be complete. The first Official Orange County map release was the Newport Beach Quadrangle for liquefaction zoning on April 7, 1997. A total of 21 quadrangles cover Orange County, impacting 33 cities. The Orange County portions of 3 quadrangles, Alberhill, Corona South and Sitton Peak, are contained within the Cleveland National Forest and will not be mapped for seismic hazards.

This completion is a substantial advance in the geotechnical information available for Orange County and a milestone for the SHMP, as it is the first completely mapped county. Since the Newport Beach official map release, the SHMP has refined the mapping methodologies, released 76 Official Seismic Hazard Zone maps (as of December 20th) affecting 6 counties and has received approximately 1,400 geotechnical reports. A complete listing of all affected cities is printed on page 2.

COUNTIES AND CITIES AFFECTED BY OFFICIAL SEISMIC HAZARD ZONE MAPS AS OF NOVEMBER, 2002

ALAMEDA COUNTY

Oakland
Piedmont

LOS ANGELES COUNTY

Agoura Hills
Arcadia
Artesia
Azusa
Baldwin Park
Bell
Bell Gardens
Bellflower
Beverly Hills
Burbank
Calabasas
Carson
Cerritos
Claremont
Commerce
Compton
Covina
Cudahy
Culver City
Diamond Bar
Downey
Duarte
El Monte
El Segundo
Gardena
Glendale
Glendora
Hawaiian Gardens
Hermosa Beach
Hidden Hills
Huntington Park
Industry
Inglewood
Irwindale
La Canada-Flintridge
La Habra Heights
La Mirada
La Puente
La Verne
Lakewood
Lomita
Long Beach
Los Angeles

Lynwood
Malibu
Manhattan Beach
Maywood
Monrovia
Montebello
Monterey Park
Norwalk
Palos Verdes Estates
Paramount
Pasadena
Pico Rivera
Pomona
Rancho Palos Verdes
Redondo Beach
Rolling Hills
Rolling Hills Estates
Rosemead
San Dimas
San Fernando
San Gabriel
San Marino
Santa Clarita
Santa Fe Springs
Santa Monica
Sierra Madre
Signal Hill
South El Monte
South Gate
South Pasadena
Temple City
Torrance
Vernon
Walnut
West Covina
West Hollywood
Westlake Village
Whittier

ORANGE COUNTY

Aliso Viejo
Anaheim
Brea
Buena Park
Costa Mesa
Cypress
Dana Point
Fountain Valley
Fullerton
Garden Grove

Huntington Beach
Irvine
La Habra
La Palma
Laguna Beach
Laguna Hills
Laguna Niguel
Lake Forest
Los Alamitos
Mission Viejo
Newport Beach
Orange
Placentia
Rancho Santa Margarita
San Clemente
San Juan Capistrano
Santa Ana
Seal Beach
Stanton
Tustin
Villa Park
Westminster
Yorba Linda

SAN FRANCISCO COUNTY

San Francisco

SANTA CLARA COUNTY

Milpitas
Monte Sereno
Mountain View
Palo Alto
San Jose
Santa Clara
Saratoga
Sunnyvale

VENTURA COUNTY

Camarillo
Moorpark
Oxnard
Port Hueneme
Santa Paula
Simi Valley
Thousand Oaks
Ventura

The Seismic Hazard Mapping Web Page Update.

New additions to the SHMP web site include **map location by Zip Code**. You can now choose your zip code from the pull-down menu on the "download data" site or by using the mouse-over on the "review maps" site. From the front page, choose Northern or Southern California from the Map, and then simply choose your option using the radio buttons on the left hand navigation bar under "Mapping Options".

We have also added the list of **affected cities**. On the front page, this link has been added to the left hand navigation bar. You can locate your city which will link you to the map that it is located in. You will need the Internet Explorer ActiveX control or Netscape plug-in. These can be downloaded from our site at <http://gmw.consrv.ca.gov/shmp/acgm/acgmbrowser.htm>

If you have a published product that lists our website as www.gmw.consrv.ca.gov and does not work, try using [gmw](http://gmw.consrv.ca.gov) instead.

REMINDER: FILING OF SITE INVESTIGATION REPORTS

Cities and Counties where Official Seismic Hazard zone maps have been released are required to send a copy of any required site investigation to the State Geologist within 30 days of report approval.

The purpose of this submittal is to expedite future updates of the zone maps by CGS. The Department of Conservation has no review authority, and does not approve or disapprove the reports.

Send reports to:

Department of Conservation
California Geological Survey
Seismic Hazard Mapping Program - Reports
801 K Street, MS 12-31
